

1. Online Food Delivery App – Mobile UI Design

Scenario:

A food delivery company wants a mobile application through which customers can browse restaurants, search for food, add items to a cart, and place orders.

Question:

Using **Figma**, design a mobile food delivery application with the following screens: 1.

Login Screen – Email, password, Login button, and Forgot Password option. 2.

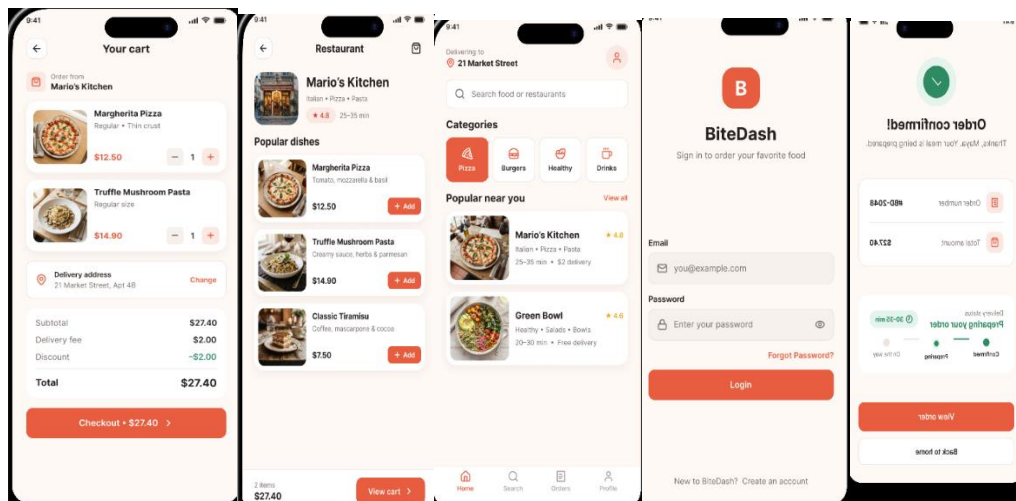

Home Screen – Search bar, food categories, restaurant cards, and navigation bar.

3. **Restaurant Menu Screen** – Restaurant name, food items, prices, images, and Add button.

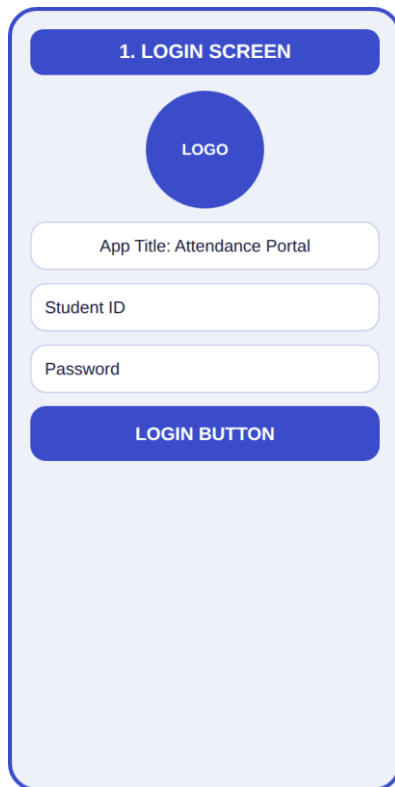

4. **Cart Screen** – Selected items, quantity, total amount, and Checkout button.

5. **Order Confirmation Screen** – Order number, total amount, delivery status, and estimated delivery time.

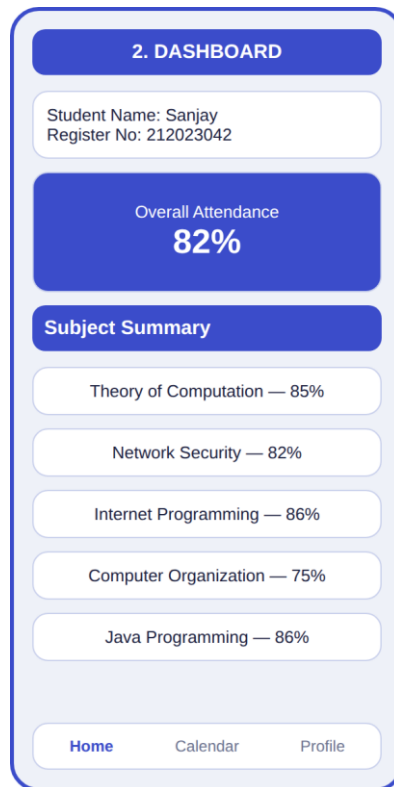

Figma requirements: Use **Frames**, **Auto Layout**, **Components**, icons, and **Prototype** interactions to connect the screens.
